

## The Brand

+

Bergstern is a distinctive brand, whose foundations are underpinned by exceptional, strong and noble inspirations. The first of these is the enchanting beauty of the Swiss landscape, its purity, grandeur and majesty. A place where the mountains seem to touch the heavens, reaching for the stars. The second inspiration, however, is the strength of human character and all the traits that enable it to develop, improve, steadfastly strive for success and fulfil bold dreams.

# Swiss Quality

+

The hallmark of Bergstern timepieces, which come with a 3-year warranty, is quality, with high specifications at an accessible price.

Bergstern watch cases are made from stainless steel or titanium.

Depending on the model, the crystal is sapphire, with an anti-reflective coating on selected models, or mineral.

At the heart of every Bergstern watch is Swiss reliability and precision in the shape of either a quartz movement – Ronda, ETA, or an automatic Sellita one, with functions such as chronograph tailored to the character of the model.

The right bracelet, rubber, textile or natural leather strap is selected for each model.

sports collection

The Bergstern brand's collection-manifesto. Masculine, brimming with power and character. Reach for an Active watch and you're choosing a lifestyle in which the stakes are high, and half-measures just don't come into it. Each element adds to the invincible mood – the proud profile, the strongly accentuated indices, the robust hands. The impression of relentless dynamism is emphasised by the contrasting, brightly coloured features. The technical parameters characteristic for branded watches in the sports segment are more than equal to this watch's resolute image.

## **HARMONY**

classic collection

A canon defined anew. The immaculate watches in the Harmony line simply prove that a classic line based on fresh inspiration can still be of interest. The neat and superbly coherent whole comprises a traditional shape or modern, stark detail – this is what determines the nature of the collection. The clarity of form recalls the pure alpine skies. Thanks to its sense of order and appealing sterility, time spent with a Harmony watch is in itself a sensual pleasure. Both men's and women's versions are available.

jewellery collection

A line dedicated to the woman – intelligent, knowing what she wants, self-aware.

A watch in the Brilliance concept tastefully complements her image. It fulfills this role in a dazzling way – elegant, and yet with welcome self-restraint. Its strength lies in its lack of ostentation. It suits every occasion. A Brilliance watch's case, with its discreetly ornamented dial, seamlessly merges with the bracelet. Selected designs feature the beautiful opalescence of mother-of-pearl.
